Telephone Number: _____

Please give a brief description of the native plant salvage plan including estimated date of salvage, place of relocation, and any other relevant information:

Attach this sheet to the Native Plant Inventory consisting of:

- 1) An Aerial photograph and/or site plan showing the location of all protected native plants within the area of disturbance; and**
- 2) A Listing of the number, species, size, general condition, and salvage status of all protected native plants within the area of disturbance.**

Return to Planning and Building Department with your building/demo/grading application. Only complete submittals will be accepted. Do not attempt to move any plant materials prior to permit issuance. *Before requesting final inspection, Applicant will be required to submit a Native Plant Certification.*

Applicant Signature: _____ *Date:* _____

NOTICE: Failure to comply with the Native Plant Preservation Plan shall cause immediate suspension of all inspection activity. In addition, any violation of the Native Plant Preservation Ordinance is a misdemeanor punishable by fine and/or imprisonment.

Town of Paradise Valley

Native Plant Preservation Plan Submittal Requirements

In order to ensure mature native plants are not unnecessarily destroyed or removed, the Town of Paradise Valley has adopted a Native Plant Preservation Ordinance. This ordinance requires the submittal of a Native Plant Preservation Plan whenever someone applies for any of the following:

1. Building Permit for all new construction and additions valued \$500,000 or greater
2. Demolition Permit
3. Grading Permit

A Native Plant Preservation Plan must be submitted to and approved by the Town of Paradise Valley before the destruction, removal, or relocation of the native plants listed below:

Trees over four (4) inches in caliper of the following species:

White Thorn Acacia (*Acacia Constricta*)
Catclaw Acacia (*Acacia Greggii*)
Foothill Palo Verde (*Cercidium microphylum*)
Blue Palo Verde (*Cercidium floridum*)
Ironwood (*Olneya tesota*)
Mesquite (*Prosopis species*)

Cacti three (3) feet or greater in height of the following species:

Saguaro (*Carnegiea Gigantea*)
Barrel (*Ferocactus species*)
Ocotillo (*Fouquieria splendens*)
Desert Night Blooming Cereus (*Peniocereus greggii*)

Protected plants may be relocated on or off-site. Protected plants may only be destroyed if they are unsalvageable due to disease, damage, etc. and only after the Town approves the preservation plan. For your convenience, the Town maintains a list of landscape salvage contractors in the area.

Once the Town approves the Native Plant Preservation Plan, the plan may be implemented. The Town requires the submittal of a Native Plant Certification Form once the work has been performed. **The Certification must be received prior to any final inspection on site.**

Town of Paradise Valley Native Plant Salvage Contractors
