

WE'RE INVESTING IN THE FUTURE!

We're Nearing Completion!

Contractors for the EPCOR water main installation will be returning to the area near 36th Street, shown on the map below, from October 7 through November 1. Due to unanticipated soil conditions, a slight adjustment to the original schedule was needed and we're now returning to install the water main in this area.

The entire project is anticipated to be complete, including all paving and landscape restoration, by November 15, 2019. There has been a delay of approximately one and a half months due to unanticipated conditions underground. The significant work in the Tatum Boulevard intersection will be complete by October 9, 2019, and we thank you for your patience. The project team also is coordinating with the sidewalk project on the north side of Lincoln to ensure that there are no conflicts between the two projects that may cause impacts to the public or delays to the schedule.

We recognize this work may cause temporary inconveniences, and we're completing it as quickly and safely as possible. Please contact us should you have any questions or concerns. **Questions?** Call 1-800-383-0834 and press 4 to speak to a team member.
