etc). Since permits are only valid for 180 days, not all applications should be made at the same time. To qualify as an Owner/Builder the improvements must be solely for occupancy by the owner and not intended for occupancy by members of the public as the owner's employees or business visitors and not intended for sale or rent within one year after completion or issuance of a certificate of occupancy. (As per A.R.S. § 32-1121) Written authorization required for anyone acting as an agent for the owner of the property (Value >\$25k). Demolition Permit is required any time more than twelve feet (12') of wall, fence, roof or slab is removed. Dust Control Plan (attached) is req'd if the area disturbed is equal to or less than 0.10 acre. _____ Dust Control Permit from Maricopa Co. is req'd if disturbance > 0.10 acre and not an owner/builder. _____ ADOR Bond Exemption Certificate for new SFR or MRRA > 25% of FCV. Letter stating "Structures will not be placed in washes, retention basins or drainage easements." (if req'd) NPDES Permit or Notice of Intent from ADEO for disturbance areas greater than 1 acre (see Eng Dept.) For all new SFR (regardless of value) and for other projects with a value of \$500,000 or greater: _____ Two (2) sets of grading & drainage plans, signed and sealed by Civil Engineer registered in AZ. _____ Two (2) sets of Native Plant Preservation Plan with attachments. _____ Fire Indemnity Agreement (if applicable) _____ Drainage Easement & Maintenance Agreement (if applicable; see Ordinance 513) ____ Calcs for mech equipment sizing per ACCA Manual S based on loads from ACCA Manual J. One (1) CD of G & D, floor plan and exterior building elevations (after approved by the Town). □ Septic Maricopa County permit/approval req'd for new SFR, new fixtures or bedrooms; or Options □ Phoenix City of Phoenix sewer fee receipt for new sewer service; or □ Existing PV Written verification of water meter size and installation date; or □ New PV Application/Information sheet to be filled out and sewer development fees paid. Two (2) sets of <u>stapled</u> plans for projects valued at \$50,000 or less or one (1) set of <u>stapled</u> plans at initial submittal for projects valued greater than \$50,000. Two (2) sets of corrected plans req'd at resubmittal. Minimum plan size is 24" x 36". Plans must be drawn to scale and include: Grading and Drainage plans are required on all projects that alter the topography of a lot. Site Plan (may be the G & D) with all existing ROW(s), washes & easements with dimensions _____ Foundation Plan with details. Show sizes, depth and reinforcing bars. _ Floor Plan with dimensions and square footage. Heating and cooling equipment per Manual S. Elevations shown from **LOWEST NATURAL GRADE** (LNG), not from Finish Floor. _____ Plumbing with isometrics (waste & vent, gas, water) & water fixture unit calcs (w/ meter size). Electric Plan (may be on Floor Plan) with one line diagram and load calcs. _ Attic ventilation calcs and locations unless insulation is at roof sheathing. _____ Complete Roof and Floor (if applicable) Framing Plan. One (1) set of truss calcs and truss layout or completed truss deferral form. (Req'd if a new meter is installed or existing meter is upsized) Water Meter Size: SETBACKS OF STRUCTURE(S) MEASURED FROM PROPERTY LINE SFR Accessory Accessory Other Front (N, S, E, W)Rear (N, S, E, W) Side (N, S, E, W)Side (N, S, E, W)Height FLOOR AREA RATIO = ZONING: MULTI-FRONTAGE? Y / N

A separate application is required for each type of structure (i.e. SFR, Guest House, Ramada, Fountain, Fence,

Dust Control Plan

(for disturbed areas up to 4,356 square feet*)

Date: Address:				
Choose at least one measure per (lettered) category. (Must be done for the life of the project.)				
EARTHMOVING				
(It is always an option to cease operations to prevent dust.)				
A) Grading / Demolition / Landscaping / Weed Control:				
□ Conduct watering as necessary to minimize visible emissions (increase frequency in high winds).				
□ Thoroughly wet the site to the depth of any cuts. B) Trenching / Screening / Backfilling:				
□ Mist dust cloud resulting from trenching (increase frequency in high winds).				
□ Mist dust cloud resulting from trenening (<i>increase frequency in high winds</i>).				
□ Use water truck or large hose dedicated to trenching & backfilling operations.				
SITE STABLIZATION / DISTRUBED SURFACE AREA				
A) Temporary Stabilization: (Including weekends & holidays)				
□ Water all areas at least twice a day until a crusted surface is formed.				
□ Apply chemical stabilizers.				
□ Additionally use wind fences / barriers / berms (not allowed as a primary measure).				
When active operations will not occur for more than 15 days:				
□ Apply dust suppressants to all disturbed areas to maintain stabilization.				
□ Water all areas at least twice a day until a crusted surface is formed.				
□ Additionally install temporary coverings / enclosures (not allowed as a primary measure). B) Final Stabilization: Within 8 months after active operations have ceased:				
□ Pave the affected area. □ Stabilize with gravel and/or recycled asphalt. □ Stabilize with vegetation.				
C) Open Storage Piles:				
□ Apply chemical stabilizers.				
□ Apply water to the surface of areas of all open storage piles on a daily basis.				
□ Additionally install temporary coverings / enclosures (not allowed as a primary measure).				
MATERIALS HANDLING / HAULING				
A) Materials Handling:				
□ Thoroughly wet material prior to handling or loading.				
□ Water and/or mist material while loading to minimize visible emissions.				
B) Hauling: All haul trucks must be effectively covered with a tarp or other suitable enclosure.				
ROADWAYS / ACCESS POINTS				
A) Unpaved haul / access roads / equipment paths: Restrict vehicle speed to 15 mph.				
□ Stabilize with gravel and/or recycled asphalt. □ Apply chemical dust suppressants to maintain surface stabilization				
 □ Apply chemical dust suppressants to maintain surface stabilization. □ Water all surfaces as needed to minimize visible emissions. 				
B) Access Points: Vacuum or wet broom daily all dirt or mud on paved road.				
□ Install a stabilized construction entrance / coarse gravel pad (Required if any hauling on or off site).				
□ Install a wheel washer.				
□ Limit, restrict and/or reroute motor vehicle access.				
WATER SUPPLY				
A) Availability: □ Water storage tank □ Metered hydrant □ Hose bibb □ Other:				
B) Application: □ By water truck(s) # gal/truck □ By hoses □ By sprinklers				

I hereby certify that I am familiar with the operations presented above and agree to conduct all operations in compliance with the above, with Maricopa County Rule 310 and with all applicable environmental regulations.

PARADISE VALLEY CONSTRUCTION SITE SECURITY CHECKLIST

This Construction Security Awareness Checklist is designed to help construction contractors and owners conduct a crimerisk awareness assessment for construction job sites to minimize and avoid thefts in neighborhoods. To enhance communications and foster better relations, a Paradise Valley Police Officer is available to review this checklist with the construction site contractor and manager, if desired.

If you have questions, please do not hesitate to call Community Resource Officer at 480-948-7418 or you can email CRO@paradisevalleyaz.gov. After receiving this checklist from Building Department, the Community Resource Officer will provide a copy to the Officer in the designated area. If there is an emergency, please dial 911. If it is a non-emergency, please dial 480-948-7418 at the Paradise Valley Police Department.

You are not expected to answer every question Yes. If the information does not exist or the Crime Prevention Coordinator has not completed the item or is not able to do so, just mark "No." This is an awareness checklist to help reduce crime on a jobsite, but it does not mean that every single item below needs to be checked "Yes" in order to begin work.

Thank you very much for partnering with the Town of Paradise Valley Police Department in keeping the Community a safer place, discouraging theft and individuals who will be looking for items to steal, and helping General Contractors and Subcontractors reduce theft of equipment and materials.

	CONSTRUCTION SITE SECURITY CHECKLI	ST
NO.	TOPIC	RESPONSE
	CRIME PREVENTION COORDINATOR ("CPC")	
1.	Please identify your construction site CPC and provide contact info. Name/Title of Crime Prevention Coordinator:	Yes No
	Job Site Address: Email Address: Cell #: Work #:	
2.	Permit #: Is there a company contact for after hours? If other than CPC, please provide name and cell number:	Yes No
3.	Is there a written job site security plan or checklist in place?	Yes No
4.	Has the HOA or adjacent residents been included in the security plan or checklist?	Yes No
5.	Does the CPC have contact information for the HOA or adjacent residents?	Yes No
6.	Has the CPC completed crime prevention awareness training with the subcontractors and employees of the contractor?	Yes No
7.	Did the CPC remind all employees of the subcontractors and general contractor to remind them that if they "See Something" they should "Say Something?" and to call 911 or 480-948-7418 for non-emergencies.	Yes No
	ASSET, PROPERTY IDENTIFICATION AND CAMERAS	
8.	Are all assets on the site engraved or marked? Items can be engraved with logos or names or even spray paint of a distinct color. Valuable equipment should be marked in hidden locations.	Yes No
9.	Have you and your subcontractors and their employees photographed, recorded serial numbers, marked, and inventoried company and personal equipment?	Yes No

10.	Are signs posted that state that all assets are marked and inventoried?	Yes	No
11.	Are cameras installed?		
12.	If cameras are installed, do you have notices posted that security cameras are watching the construction site?	Yes	No
	INVENTORY CONTROL		
13.	Are materials and equipment checked frequently to ensure they have not been stolen or misplaced?	Yes	No
14.	Are deliveries of supplies or materials logged?	Yes	No
15.	Will appliance delivery be delayed until the structure can be locked?		No
16.	Are delivery vendors all identified and recorded by the construction site contractor? (eg, photo of license plate)	Yes	
	KEYS OR CODES		
17.	Are keys or codes issued only to those that need them, and a record maintained of those who have been assigned or provided keys or codes?		No
18.	Are all unused keys or codes secured?	Yes	No
19.	Have key or code control numbers been removed from padlocks or other locking devices?		No
20.	Have all employees of the general contractor and subcontractors been reminded to lock tool boxes and remove keys or codes?	Yes	No
21.	Do you have a Knox box or similar device so that first responders have access to the site in the event it is locked?	Yes	No
	SITE SECURITY		
22.	Is perimeter fencing installed according to Town Code?	Yes	No
23.	Is the fence or other secured device around the perimeter inspected regularly?	Yes	No
24.	Are access points to the job site limited and secured?	Yes	No
25.	Is there a gate code?	Yes	No
	Is there an alarm?	Yes	No
	Gate Code or other Locking Device Contact Information in the Event the Alarm Goes Off: Name of Company or Person in charge of gates or codes:		
	Email Address: Cell Number: Work Number:		
26.	Are "NO TRESPASSING" signs displayed in a prominent place on the fencing or on the perimeter of the construction site?	Yes	No
27.	Are there secured areas provided for tools and equipment?	Yes	No
28.	Are there GPS devices on any of the equipment, tools, or vehicles?	Yes	No
29.	Are there motion detection lights used on the construction site?	Yes	No
	<u>.</u>		

Thank you for your efforts to keep Paradise Valley safe and reduce thefts!
